Report for *Vorname Name* Form 11e Academic Year 2019 /20

Vorname attended Leibniz Grammar School from 5 September 2011 till 14 July 2012 as an exchange student. She regularly attended the lessons of Form 11e in German, English, History, Ethics, Arts, Politics & Economy, Mathematics, Physics, Chemistry, Biology and Physical Education. In French, she attended the lessons of year seven, in which this foreign language is introduced.

When *Vorname* arrived, she had no command of the German language. During the year she has made great progress and is now able to communicate fluently. Despite the difficulties due to the language which she had at the beginning, *Vorname* always worked hard with the help of a dictionary and her classmates to be able to follow the lessons. She actively participated in team work. During the second term, she was able to understand very demanding German literature by the authors Goethe and Thomas Mann and to discuss social structures in Germany during the Middle Ages. In English, *Vorname* handed in a book presentation and written work about the topics taught in class. In addition, she made a presentation about her home country and its culture, which was appreciated very much by her form.

Despite her great progress in the German language, *Vorname* was not able to perform according to the standards of that year in all the subjects because this would have required a far higher command of German than she could reach in only one year, which is why her achievements have only been assessed with marks in the following subjects:

<u>Subject and Topic</u>	<u>First Term Mark (points out of 15)</u>	<u>Second Term Mark (points out of 15)</u>
Mathematics: analysis I	06 points (= fully sufficient)	06 points
Physics: mechanics II	05 points (= sufficient)	08 points (= satisfactory)
Physical Education:	11 points (= good)	10 points (= still good)

In addition *Vorname* took part in the fitness workshop in the second term with great success. With regard to French it must be pointed out that *Vorname* managed to learn a foreign language in a foreign language that she first had little command of. As far as swimming in Physical Education is concerned, her remarkable courage is worth mentioning since she was a beginner, unlike her classmates. In July, she did very successfully a two weeks work placement at the Arabella Sheraton Hotel in Offenbach.

From the very beginning *Vorname* integrated well into her class and made friends at school also beyond her class. She took part in school trips, excursions and various activities, where she always proved to be very friendly, open-minded, helpful, tolerant, cooperative and interested in new experiences.
