The United Nations has identified five “megatrends” that will shape our world over the course of this century: climate change and nature degradation, inequalities, urbanization, rapid population changes and technological revolution. With approximately 1.2 billion people aged 15-24 years accounting for 16% of the global population, young people must be the center of the social change needed to address these challenges.

Youth Assembly sponsors play an important role in the development of our program. You’ll:

- Contribute ideas, resources, expertise, volunteer power, and in-kind support as we work towards accomplishing our mission of empowering youth for global change.
- Join us in building a movement of emerging leaders. Help us nurture a large network of young delegates from around the world.
- Provide learning and networking opportunities, promote intergenerational dialogue and propel ideas from creation to implementation.

WHY SPONSOR THE YOUTH ASSEMBLY

Fatema Alblooshi
“The major way in which the YA has informed delegate projects is by instilling practical knowledge and learning from the experience of established professionals / entrepreneurs. Most were inspired by attending sessions about social entrepreneurship and sessions exploring social issues around the world.”

Daniel Sebugwawo
“The Youth Assembly has been the spark that has inspired the delegates I am working with to ever think of doing something that makes a difference in their communities. My Delegates explained that the Youth Assembly exposed them to know and understand the Sustainable Development Goals.”

Moiz Lakhani
“The YA has helped the delegates most in learning about the SDGs and their relevance in social entrepreneurship. I remember speaking to one delegate via call about how throughout the YA she was able to learn about the 2030 agenda as well as, the different SDG’s allowing her to subsequently establish the foundations for her social venture.”

SPONSORS HELP ATTENDEES CREATE IMPACT AT HOME

By engaging the next generation of leaders and decision makers, you’ll be working towards actively creating a better world. Here are three delegates whose participation in the Youth Assembly sparked impact projects on the ground post-event.
This program aims to enhance women’s confidence, strengthen their capacities and give guidance to their entrepreneurial work, thereby empowering them to transform their lives.

Inspired by the inter-American Convention to Prevent Punishment and Eradicate Violence against Women, this project focuses on SDGs 1 (No poverty), 5 (Gender Equality), and 8 (Decent Work and Economic Growth). The program addresses these gaps and works towards fostering the inclusion and tackling gender inequality in depth. The program is based on 4 basic pillars: empowerment, training, innovation and productivity.

The program is impacting women 18-35 years old in the Nelson Mandela Neighborhood, who have been victims of domestic violence. They began a journey through stages that help identify their problems, and help to solve their issues by focusing on leadership, empowerment and awareness. These are a fundamental part of the process by restoring the social fabric and therefore generating knowledge and new productive dynamics that transform them into resilient women, capable to compete in the market.

Sponsorship Opportunities

We are dedicated to making the Youth Assembly a diverse, inclusive, accessible event that includes young people from as many countries and communities as possible. This cannot be done without the support of generous Youth Assembly Sponsors. As a sponsor you can empower and connect with the next generation of leaders while demonstrating in a tangible way, your organization’s commitment to diversity by developing youth from countries and backgrounds around the world to tackle global challenges and transform their vision for a better future into action.

Below are the various sponsorship opportunities that are available at the 2022 Youth Assembly.

Global Citizen

Change maker
$10,000

Currently, Cartagena Siente has helped 12 participants in its first phase and project around 100 participants in 2020. Most of the women in the program were able to start their own small businesses, thus creating a foundation for financial independence for themselves and their children and even change the abusive relationship with their partner around. Ultimately what has come from this project is a group of resilient women who support each other.

The project is looking for people to help manage the program locally to reach more women in Colombia and also require additional sources of funding to run ongoing classes on skills training for women.

Both organizations bring decades of experience in the world of international education and cultural exchange, and a shared focus on developing the next generation of young leaders.

AFS Intercultural Programs is a global not-for-profit Network that provides intercultural learning opportunities to help people develop the knowledge, skills and understanding needed to create a more just and peaceful world.
