

AFS Global STEM Innovators Parental Data Processing Consent

We, as parents (or legal guardians), acknowledge that our child is submitting an online application to AFS (“AFS” includes AFS Intercultural Programs, Inc., and its affiliated exchange organizations), in order to take part in a scholarship program operated by AFS (the AFS Global STEM Innovators). The completed online application and related AFS online consent form has been made available to us.

We hereby confirm that the information submitted in our child application is accurate and complete to the best of our knowledge, including any medical information provided. We understand that providing complete and accurate answers, including medical history and medications, is important so that AFS has the information needed to provide for the care and safety of our child during the program.

We also understand and agree that AFS will process our and our child’s personal data, including sensitive data, according to the AFS online consent form and privacy policy terms. Those documents provide detailed information about how AFS collects, uses and stores personal data.

We acknowledge that we have reviewed and we accept the terms of the AFS online consent form agreed by our child and the AFS privacy policy (<http://afs.org/global-privacy-policy/>).

We also acknowledge that all personal data provided by us and our child is accurate and complete.
