**Location:** Wellington, central city

**Size of school:** 1,400 students

**School uniform:** no

**Website:** [whs.school.nz](http://whs.school.nz)

### Liberal and forward thinking in the heart of the city

Wellington High School is the only central city co-educational secondary school in Wellington. The school is well-known for its inclusive and accepting culture and diverse student community.

Alongside the traditional subjects (English, Maths, Science and Social Science), Wellington High offers a fantastic range of options such as sonic arts, earth and space science, outdoor education, hospitality, horticulture, mechanical engineering, fashion and more.

Many students also join clubs and other co-curricular activities the school has to offer.

The dedicated international staff focus on providing a safe, supportive and productive environment for their students, and a shared international room is a great place to connect with other international students over lunch.
