The best of both worlds; the quiet of a small town with the bustle of city life nearby

Onslow College is known for its student centred philosophy.

The dedicated international staff provide individual support for all international students, helping them to achieve academically in another language while immersing themselves in their New Zealand cultural experience.

Onslow offers a wide range of academic subjects, and a large number of students and staff are involved with co-curricular activities at the College.

The campus is set in the hills, surrounded by fields and some native bush. Yet, the centre of Wellington is just a short drive or 20-minute train ride away,
